

A.S.T.R.O. Meeting - held Friday July 10, 2009 at 8:00 p.m.
Clarence Gardens Community Centre GLANDORE.

- CHAIRPERSON** Welcomed all
- SPEAKER** Damian Fidge – Holographic Principles
Damian gave members an insight into his personal on the subject of Holograms under the following topic headings – Science / Memory / Scalar Waves / Artificial Intelligence / Binary Systems / Vectors vs. Scalars / Holographic Healing / Theory on Geometric Progression – Return to source. Interesting items from the talk – Properties of holograms - Holograms are able to be derived mathematically and can be simulated on computer – Holograms can be created using a scalar wave – Scalar weaponry / interferometry (almost no-one knows anything about it). Chakras – the receiving and transmission of energy within the body. Holographic Memory explored – Memory is distributed / massive / associated / with instantaneous pattern recognition (all properties of holograms) Theory - Geometry of Artificial Intelligence including how to collapse a Binary Star Tetrahedron. Scalar – Vectors – Matrices – Tensors – continuum. Digital vs. analogue sound (for health). Every computer in Nature uses an analogue system. Noble Gases. *The Holographic Universe* - Michael Talbot.
- TREASURER** Balance of A/c = \$2,500
Treasurer also reported that ASTRO members have received an invitation from Internode to come along on the 2ND Friday in November in King William Street. Treasurer asked for show of hands to register interest. Members indicated they would like to attend this event.
- MEMBER** About 9 months after each volcano there is an earthquake
- ANDREW** Ecovortek unit – fuel. Fuel turbulates through magnetic field. By January 2010 all houseboats must have sewerage system which discharges pure water back into the waterway.
ORMUS – good for growth of vegetables.
- MEMBER** Japan - New type of septic tanks – toilet without water plumbing
- DEVASHON** Suggestion – Michael to nominate for Chairperson
- ASHLEY** MMS – Jim Humble
- PETER** MMS – NASA developed Na Hypochlorite (ClO₂) for health issues in space. Sodium Bicarbonate and maple syrup good for cancer treatment. Many fish are almost immortal – bicarbonates are credited for the repair. Mg bicarbonate “Complete Water. Bicarbonates are at the beginning of all cellular repair.

ASHLEY

Nagari, washed and dried seawater (fermentation activator). (Mg. delivery method) Food and Greeting Co. Melbourne. \$52 delivered. Holographic Healing – Ho'ponopono (heart centred space, focus on photo ¼ hour – Cite 4 things – 1. I am sorry. 2. Please forgive me. 3. I love you 4. I thank you.

KEN

Chava Energy bought Tesla's Long Island building. Newsletter – Tesla's Birthday –
