

A.S.T.R.O. Meeting - held Friday October 10, 2008 at 8:00 p.m. Clarence Gdns.

**CHAIRPERSON**      Opened the meeting and welcomed those present

**ATTENDANCE**      41 persons attended on the evening

This meeting was scheduled as **TECHNICAL NIGHT**

The following items were presented to the Meeting by individual Members as specified

**ASHLEY**      - Project Camelot, George Green's Magnetic Motor, Asymmetry

**Discussion**      - Movie "Dimensions" – Geometry Part 1-9 Played as backdrop to Meeting  
- Ian R. Crane "conspiracy" < [www.ianrcrane.com](http://www.ianrcrane.com) >

**DEVASHON**      - MK Ultra – CANADA  
- "How Healing Became a Crime"  
- "The Last Days of Health Freedom"

**DINO**      - EDTA information – sublingual/ EDTA –cholesterol/purchase EBAY  
- EDTA supplement at night – Minerals supplement by day  
- Linus Pauling

**MICHAEL**      - Audio Visual Device (5 frequency) Proteus Advanced Light and Sound System

**ANDREW**      - [www.temporarytemples.co.uk](http://www.temporarytemples.co.uk) - crop circles  
- Structure of Water – 104.5° between H + O<sub>2</sub>  
- Water Properties  
- The Solar Economy

**RICHARD**      - Demonstrated an inexpensive fume exhaust device for home/workshop  
Very effective for use when soldering, gluing and using solvents.  
Small 12 volt battery or DC power source  
1 x 12v fan ( Cooling fan from an Intel chip – 65mm Dia.)  
Piece of 95x75 plastic pipe. Can be short for bench use or longer for better exhausting. A switch was mounted on the tube, and an arrow to show the direction of airflow.  
Initially he tried it blowing across the work and that made things worse. So he reversed the tube/fan and it sucked the smoke, lead, tin, etc. away from being inhaled.  
A hair mineral hair analysis had revealed both elevated lead and tin, and this prompted the device, which cost nothing to construct. (Good value!) (Someone in the audience commented that when soldering, etc., fumes are attracted to the face and this seems to be the case.)

- RUDI**
- Algae
  - Stanley Meyer – Energy from Water
  - NZ 60 Minutes – Motor cycle run on water
  - Thailand – Buses run on Hydrogen
  - Hydrogen produced in vacuum
  - Steam passed through rare earth
- PETER**
- Magnesium Chloride ref. NEXUS / Mg Cl is concentrated seawater
  - Research – Beta-sitosterol (in peanut oil) controls xenoestrogens
  - Enzyme – Serrapeptidase (technically Serratia Peptidase) is a multi-functional proteolytic enzyme *that dissolves non-living tissues such as fibrin, plaque, blood clots, cysts, and inflammation in all forms* – without harming living tissue.
- ASHLEY**
- Mg Cl Oil for massage gives instantaneous relief from muscle complaints
- MATTHEW**
- Adelaide University Desalination Forum – Charlie Madden / Professor Peter Dowd
- TREASURER**
- Fibonacci graph
  - Recalled the enthusiasm shown by Members whilst undertaking a previous collaborative project.
- CLOSE**
- 10.10 pm followed by Supper
