Making use of ‘dead time’ – listening to audio books while travelling, writing, mowing the lawn, before sleep etc. “How To Market Ideas” – Inventors too engrossed in ‘ideas’ cannot see ‘big picture’ – get rejection, get angry. Can look at this technology on YouTube. Michael is building small (double/halfway coil) Tesla coil (ceramic) – plan to use Tesla coil to power Rodin coil. Rodin coil – toroid shape (uses base 9 mathematics) double the magnetic strength. Rodin wanted to make a man-made black hole and reactionless drive – thought to create magnetic vortex in the centre.
- PETER** Demo – L.E.D. torch with magnetic extender / Video of magnetic wheel / Previously built a Geet motor with limited success.
- ASHLEY** Greg Gunning “Geet” - ASTRO to fund trip? NEXUS Ted Roach “The Physics of a Flying Saucer”. Most (alcoholic) spirits have a proportion of methanol – redistilling removes the methanol.
